### **EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance:

The closest prior art by Fall et al. does not explicitly disclose "the use of said bitmaps to compare proposed drawing graphics with already committed drawing graphics to confirm the availability of white space for the placement of proposed new graphics or to determine the degree of overwriting; and based on the availability of white space or the degree of overwriting, control variables and status variables are used to guide adjustments along a vector, or about a rotation point, as a means of moving proposed new graphics into either a location of while space or into a location with less overwriting", wherein the status variables are used to define the quality of white space found (page 7, line 2) and the control variables and status variables are exemplified by Table I and Table II..

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
